Prepared By:	Richard H. Worsinger, Director of Energy Resources	
Approved By:	City Council	
Effective Date:	9/01/15	Page: 1 of 2
Supersedes:	7/01/13	

---

#### INDUSTRIAL – FIRM SERVICE SCHEDULE GSI

##### AVAILABILITY

This schedule is applicable for the sale of firm natural gas service to industrial customers for industrial process operations that are typically year round usage and reasonably anticipated to equal or exceed 400 therms per day.

Natural gas delivery under this rate schedule shall be at a single point of delivery through a standard gas meter provided by the City to record use for monthly billing. The customer may incur other charges if extraordinary requirements or equipment is necessary to provide service. Service is provided on a firm gas basis and not subject to curtailment or interruption, except that caused by force majeure, or operating conditions beyond the control of the City or customer.

##### MONTHLY RATE

Facilities Charge	\$250.00 per billing month
All therms	\$0.94737 per therm

Plus the Purchased Gas Adjustment if any for all therms metered each month.

## **PURCHASED GAS ADJUSTMENT**

The Purchased Gas Adjustment is a monthly adjustment to the per therm charge to all firm nonnegotiable gas rate schedules. The adjustment is made each month by the Director of Energy Resources based on the difference between the estimated and actual cost of natural gas and includes a factor to adjust for abnormally cold or warm winters.

## **MINIMUM TERM**

Service will be provided for a minimum term of one year.

## **GENERAL**

Service rendered under this Schedule is subject to the provisions of the service regulations of the City.

## **PAYMENTS**

Bills are due when rendered and are payable within 21 days from the date of the bill. If any bill is not so paid, the City will impose a charge of 1½% per month, and if the bill has not been paid within 7 days of the due date, the City has the right to suspend service in accordance with its service regulations.

## **LIABILITY**

Gas shall be delivered to customers if and when the City has the commodity available for delivery. The City shall not be liable for any interruption in the supply of such gas to customers resulting from non-availability, acts of God, strikes, power failures, line breaks, system repairs, system additions or improvements, accidents or catastrophes, tampering, or any cause beyond the reasonable control of the City.
