

# Here's What We are Doing to Keep You Safe

At Nash UNC Health Care, our patients' safety and comfort are our top priority. We appreciate the trust you have in us and we will get through this together. The following measures are being taken to ensure the safety of you and our staff:

**Screening patients prior to scheduling appointments.**

## **Limiting visitors and companions.**

In an effort to promote physical distancing and reduce potential for exposure, we are currently limiting the number of visitors and companions.

## **Masks for patients and staff.**

Wearing a face mask, regardless of symptoms, helps keep you and staff safe during your visit. We will be happy to provide you a mask for your appointment.

## **Keeping it clean.**

We are maintaining robust cleaning procedures throughout the day, as well as doing a deep clean overnight.

**If you have a cough or shortness of breath or think you have been exposed to coronavirus, call us before visiting. If you are having trouble breathing, seek immediate attention or call 911.**
