The Owner reserves the right to limit the amount of portions of work to be subcontracted as hereinafter specified.

13. CHANGES IN THE WORK AND CLAIMS FOR EXTRA COST

- a. The owner may have changes made in the work covered by the contract. These changes will not invalidate and will not relieve or release the contractor from any guarantee given by him pertinent to the contract provisions.
- b. Except in an emergency endangering life or property, no change shall be made by the contractor except upon receipt of approved change order from the MWBE Coordinator, countersigned by the Housing Rehabilitation Specialist authorizing such change. No claim for adjustments of the contract price shall be valid unless this procedure is followed.

In the event of emergency endangering life or property, the contractor may be directed to proceed on a time and material basis whereupon the contractor shall proceed and keep accurately on such form as specified by the Purchasing Manager and Housing Rehabilitation Specialist, a correct account of costs together with all proper invoices, payrolls and supporting data. Upon completion of the work the change order will be prepared as outlined c.

- e. The term "net cost" as used herein shall mean the difference between all proper cost additions and deductions. The "cost" as used herein shall be limited to the following:
 1. The actual costs of materials and supplies incorporated or consumed as part of the work;
 2. The actual costs of labor expended on the project site; labor expended in coordination, change order negotiation, record document maintenance, shop drawing revision or other tasks necessary to the administration of the project are considered overhead whether they take place in an office or on the project site.
 3. The actual costs of labor burden, limited to the costs of social security (FICA) and Medicare/Medicaid taxes; unemployment insurance costs; health/dental/vision insurance premiums; paid employee leave for holidays, vacation, sick leave, and/or petty leave, not to exceed a total of 30 days per year; retirement contributions; worker's compensation insurance premiums; and the costs of general liability insurance when premiums are computed based on payroll amounts; the total of which shall not exceed thirty percent (30%) of the actual costs of labor;
 4. The actual costs of rental for tools, excluding hand tools; equipment; machinery; and temporary facilities required for the work;

5. The actual costs of premiums for bonds, insurance, permit fees and sales or use taxes related to the work.
- f. Should concealed conditions be encountered in the performance of the work below grade, or should concealed or unknown conditions in an existing structure be at variance with the conditions indicated by the contract documents, the contract sum and time for completion may be equitably adjusted by change order upon claim by either party made within thirty (30) days after the condition has been identified. The cost of such change shall be arrived at by one of the foregoing methods. All change orders shall be supported by a unit cost breakdown showing method of arriving at net cost as defined above.
- g. Change orders shall be submitted by the contractor in writing to the owner/Housing Rehabilitation Specialist for review and approval. The contractor will provide such proposal and supporting data in suitable format. The Housing Rehabilitation Specialist shall verify correctness. Delay in the processing of the change order due to lack of proper submittal by the contractor of all required supporting data shall not constitute grounds for a time extension or basis of a claim. Within fourteen (14) days after receipt of the contractor's accepted proposal including all supporting documentation required by the Housing Rehabilitation Specialist, the Purchasing Manager shall prepare the change order and forward to the contractor for his signature or otherwise respond, in writing, to the contractor's proposal. Within seven (7) days after receipt of the change order executed by the contractor, the Housing Rehabilitation Specialist shall, certify the change order by his signature, and forward the change order and all supporting data to the owner for the owner's signature. The owner shall execute the change order, within seven (7) days of receipt.

At the time of signing a change order, the contractor shall be required to certify as follows:

"I certify that my bonding company will be notified forthwith that my contract has been changed by the amount of this change order, and that a copy of the approved change order will be mailed upon receipt by me to my surety."

- h. A change order, when issued, shall be full compensation, or credit, for the work included, omitted or substituted. It shall show on its face the adjustment in time for completion of the project as a result of the change in the work.
- i. If, during the progress of the work, the owner requests a change order and the contractor's terms are unacceptable, the owner, may require the contractor to perform such work on a time and material basis whereupon the contractor shall proceed and keep accurately on such form as specified by the Housing Rehabilitation Specialist or owner, a correct account of cost together with all proper invoices, payrolls and supporting data. Upon completion of the work a change order will be prepared with allowances for overhead and profit. above and "net cost" and "cost" per paragraph d above. 14. ANNULMENT OF CONTRACT

If the contractor fails to begin the work under the contract within the time specified, or the progress of the work is not maintained on schedule, or the work is not completed within the time specified, or fails to perform the work with sufficient workmen and equipment or with sufficient materials to ensure the prompt completion of said work, or shall perform the work unsuitably or shall discontinue the prosecution of the work, or if the contractor shall become insolvent or be declared bankrupt or commit any act of bankruptcy or insolvency, or allow any final judgment to stand against him unsatisfied for a period of forty-eight (48) hours, or shall make an assignment for the benefit of creditors, or for any other cause whatsoever shall not carry on the work in an acceptable manner, the owner may give notice in writing, sent by certified mail, return receipt requested, to the contractor and his surety (if applicable)

GUIDELINES FOR RENOVATION OF A PROPERTY IN AN HISTORIC DISTRICT

The property described in the attached document is either in a local historic district (meaning that the local historic preservation ordinances apply to the exterior only), in a national historic district (meaning that the Secretary of the Interior's historic preservation standards apply to both exterior and interior work) or is an individually designated historically significant building under one of these two authorities. In any case, the following SHALL apply to the work under any contract to renovate this property and it is a condition of the use of our federal funds that these guidelines are followed.

The specifications have been written to meet these standards. If any work is added after the bids are submitted, the Contractor is eligible for a change order to cover additional costs.

In general, the following items and conditions apply to all work on historic properties:

1. Whenever possible the Contractor shall repair and reuse original materials and restore the original structure and details.
2. When new materials are specified the Contractor shall assume (even if it is not specifically noted) that the new materials shall match as closely as possible either
 - (first choice) the existing damaged materials that are being replaced, or
 - (second choice) the original materials on adjacent surfaces.
3. If there are no original materials to match, the Contractor shall select new materials that are in line with the design period and style of the original structure - that is they shall "evoke" the feeling of the period of the structure. When in doubt ask the Community Development Rehab Specialist for guidance.
4. When new work requires penetrating the exterior walls or roof - such as with a new vent stack, roof ventilation -- or hanging something modern on the outside of the structure -- such as a new electrical service panel -- penetrating pipes or modern appliances shall be located out of sight of the street or sidewalk whenever possible. Locations of new penetrations require approval of the C.D. Rehab Specialist BEFORE work begins.
5. When new equipment -- such as a new HVAC unit -- will set the equipment on the property outside of the house, the Contractor shall clear the location with the C.D. Rehab Specialist prior to beginning work on that location.
6. Where submittals are required, the Contractor shall submit materials, catalog cuts or color chips to the Rehab Specialist who will forward them to the proper historic authority for approval. Comments will be returned to the Contractor within 10 business days. The Contractor shall allow time for this process and anticipate this delay as part of his agreed schedule.
7. If the Contractor proceeds with work not in compliance with historic guidelines, without having consulted the C.D. Rehab Specialist and the work is rejected by the agency with historic jurisdiction, the Contractor will be liable for removing and redoing the work to the historic guidelines at his own expense.

GUIDELINES FOR RENOVATION OF A

PROPERTY IN AN HISTORIC DISTRICT

The property described in the attached document is either in a local historic district (meaning that the local historic preservation ordinances apply to the exterior only), in a national historic district (meaning that the Secretary of the Interior's historic preservation standards apply to both exterior and interior work) or is an individually designated historically significant building under one of these two authorities. In any case, the following SHALL apply to the work under any contract to renovate this property and it is a condition of the use of our federal funds that these guidelines are followed.

The specifications have been written to meet these standards. If any work is added after the bids are submitted, the Contractor is eligible for a change order to cover additional costs.

In general, the following items and conditions apply to all work on historic properties:

1. Whenever possible the Contractor shall repair and reuse original materials and restore the original structure and details.

2. When new materials are specified the Contractor shall assume (even if it is not specifically noted) that the new materials shall match as closely as possible either

- (First choice) the existing damaged materials that are being replaced, or
- (Second choice) the original materials on adjacent surfaces.

3. If there are no original materials to match, the Contractor shall select new materials that are in line with the design period and style of the original structure - that is they shall "evoke" the feeling of the period of the structure. When in doubt ask the Community Development Rehab Specialist for guidance.

4. When new work requires penetrating the exterior walls or roof - such as with a new vent stack, roof ventilation -- or hanging something modern on the outside of the structure -- such as a new electrical service panel -- penetrating pipes or modern appliances shall be located out of sight of the street or sidewalk whenever possible. Locations of new penetrations require approval of the C.D. Rehab Specialist BEFORE work begins.

5. When new equipment -- such as a new HVAC unit -- will set the equipment on the property outside of the house, the Contractor shall clear the location with the C.D. Rehab Specialist prior to beginning work on that location.

6. Where submittals are required, the Contractor shall submit materials, catalog cuts or color chips to the Rehab Specialist who will forward them to the proper historic authority for approval. Comments will be returned to the Contractor within 10 business days. The Contractor shall allow time for this process and anticipate this delay as part of his agreed schedule.

7. If the Contractor proceeds with work not in compliance with historic guidelines, without having consulted the C.D. Rehab Specialist and the work is rejected by the agency with historic jurisdiction, the Contractor will be liable for removing and redoing the work to the historic guidelines at his own expense.
